DETAILED ACTION

Drawings

The subject matter of this application admits of illustration by a drawing to facilitate understanding of the invention. Applicant is required to furnish a drawing under 37 CFR 1.81. No new matter may be introduced in the required drawing.

Specification

The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

Claim Objections – Claims Missing

Claims 1-4 appear to be missing from the Application. Applicant is respectfully requested to submit (or re-submit) original claims 1-4, or indicate whether these claims have been cancelled. If Applicant intended to have cancelled claims 1-4, Applicant is reminded that the numbering of claims must be in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Claim Objections – Improper Multiple Dependency

Claims 6-14 (and possibly claim 5 as well) are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from a multiple dependent claim. See MPEP § 608.01(n). Accordingly, these claims not been further treated on the merits.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 5 is rejected for being indefinite because it recites the limitation "in one of claims 1 to 4" in line 1. There is insufficient antecedent basis for this limitation in the claim inasmuch as there are no "claims 1-4" included in the Application.

Claim 5 is further indefinite because this colloquial phrase is generally narrative and indefinite, failing to conform to current U.S. practice. The claim appears to be a literal translation into English from a foreign document.
